REAR PICTURE WINDOW S— For 2013 we have three floorplans with this window arrangement, two of these are shown above (250RLS, 260RLS). Two comfortable swivel rocker chairs, a sofa, or a Family Sized U—Shaped Dinette (250RDS), you choose which floorplan best fits your RV lifestyle. From the two tone day/night shades to the 26"—32" 12V HD LED TV's with Home Theatre System (DVD player, surround sound ceiling speakers, premium exterior speakers, and sub-woofer)—simply put this is how you should enjoy the "Outdoors" with your family.

THE BATHROOM - Notice the residential "Low Step In Height" glass shower enclosure & dual pane insulated skylight... taking a shower and brushing your teeth feels just like home - we have even added a wall mounted hairdryer just like you see in many hotels today - great customer idea!!

THE DINETTE - Relax with the two tone day/night shades and panoramic dinette window.... 5" dinette cushions (40% thicker for comfort), dinette storage system

(2 XL full extension drawers), and yes, do not forget the Eco-Friendly dinette construction - Outdoors RV utilizes recycled laminated fiberglass wall cutouts for added strength and insulation for years to come.

TIMBERRIDGE 270DBHS – This floorplan is so popular that we utilize this one ourselves for many Outdoors RV adventurers to talk to customers in campgrounds, at concerts, sporting event tail-gates or up to the backcountry mountain range....2 adult size 42" bunks in the rear with the bottom bunk on a hinge to close up against the wall for an incredible garage – access to this area and the huge bathroom is easy with the 2nd entry door off the opposite side of the trailer....45"x 84" Family Sized U-Shaped Dinette with rolling ottoman (you have to see this feature), 72" Sleeper Sofa, Large 22" glass front sealed burner range, XL fridge (20% more groceries), stainless steel range backsplash, knife rack, Outdoors Tough Flooring (Cold cracking warranty for 2 Years down to 50 below zero – 7 layers thick) and the list goes on....since we are active users of the Rv's we produce we design every feature we put in as if we were buying it ourselves.
